Expenditures of nonprofit school food service revenues shall be in accordance with the financial management system established by the State agency under §210.19(a) of this part. (ii) Calculate the difference between the per meal Federal reimbursement for paid and free lunches received by the school food authority in the previous school year (*i.e.*, the reimbursement difference);

(iii) Compare the average price of a paid lunch under paragraph (e)(1)(i) of this section to the difference between reimbursement rates under paragraph (e)(1)(ii) of this section.

(2) *Average paid lunch price is equal to/greater than the reimbursement difference.* When the average paid lunch price from the prior school year is equal to or greater than the difference in reimbursement rates as determined in paragraph (e)(1)(iii) of this section, the school food

authority shall establish an average paid lunch price for the current school year that is not less than the difference identified in (e)(1)(iii) of this section; except that, the school food authority may use the procedure in paragraph (e)(4)(ii) of this section when establishing prices of paid lunches.

(3) *Average lunch price is lower than the reimbursement difference.* When the average price from the prior school year is lower than the difference in reimbursement rates as determined in paragraph (e)(1)(iii) of this section, the school food authority shall establish an average price for the current school year that is not less than the average price charged in the previous school year as adjusted by a percentage equal to the sum obtained by adding:

(i) 2 percent; and

(ii) The percentage change in the Consumers Price Index for All Urban Consumers used to increase the Federal reimbursement rate under section 11 of the Act for the most recent school year for which data are available. The percentage to be used is found in the annual notice published in the FEDERAL REGISTER announcing the national average payment rates, from the prior year.

(5) *Reduction in average price for paid lunches.* (i) Any school food authority may reduce the average price of paid lunches as established under this paragraph if the State agency ensures that funds are added to the nonprofit school food service account in accordance with this paragraph.

The minimum that must be added is the product of:

(A) The number of paid lunches claimed by the school food authority in the previous school year multiplied by

(B) The amount required under paragraph (e)(3) of this section, as adjusted under paragraph (e)(4) of this section, minus the average price charged.

(B) Funds provided by organizations, such as school-related or community groups, to support paid lunches;

(C) Any portion of State revenue matching funds that exceeds the minimum requirement, as provided in §210.17, and is provided for paid lunches; and

(D) A proportion attributable to paid lunches from direct payments made from school district funds to support the lunch service.

(6) *Additional considerations.* (i) In any given year, if a school food authority with an average price lower than the reimbursement difference is not required by paragraph (e)(4)(ii) of this section to increase its average price for paid lunches, the school food authority shall use the unrounded average price as the basis for calculations to meet paragraph (e)(3) of this section for the next school year.

(ii) If a school food authority has an average price lower than the reimbursement difference and chooses to increase its average price for paid lunches in any school year more than is required by this section, the amount attributable to the additional voluntary increase may be carried forward to the next school year(s) to meet the requirements of this section.

(iii) For the school year beginning July 1, 2011 only, the limitations for non-Federal contributions in paragraph (e)(5)(iii) of this section do not apply.
